25X1

25X1

2. The attached Interface Control Document (ICD) has been formatted into a Memorandum of Understanding so that both interface parameters and responsibilities can be more clearly identified and brought together.

25X1

3. A review of the ICD by 4 March 1988 would be appreciated.

25X1

4. Please forward any comments to FBIS' point of contact for this issue. Should you require further information, he can be reached on

MEMORANDUM FOR: Chief, Customer Support Group, OIT

FROM:

[redacted]
Chief, Engineering Support Group, FBIS

25X1

SUBJECT:

Request for [redacted] Trunk
Circuit via Headquarters To Support FBIS Requirements

25X1

25X1

1. FBIS wishes to formalize a requirement for a direct 2.4 kbps asynchronous trunk circuit between [redacted] and FBIS Headquarters, [redacted] via Headquarters, Langley. This service has been discussed informally with the Office of Communications on a number of occasions over the past year. [redacted]

25X1

25X1

25X1

2. This requirement will improve delivery of time-sensitive information to FBIS Headquarters and will eliminate the current delays associated with format conversion at the Pentagon and store-and-forward switching delays at the Autodin switches at Ft. Detrick and Andrews AFB.

25X1

3. FBIS has some minor software changes to make to its unclassified segment and believes it will be ready to accommodate the new circuit by 15 March 1988. The proposed [redacted] trunk service is requested on or about this time. [redacted]

25X1

25X1

4. OIT's support to our modernization program is greatly appreciated and has helped us significantly. [redacted]

25X1

5. FBIS' point of contact on this subject is [redacted] who can be reached on [redacted]
